

PCX ROX 8R 8T WIRED EXPANDER

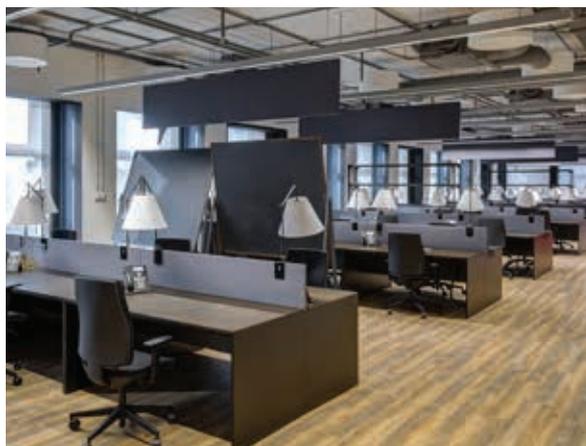

Added expansion

Allowing complete wiring flexibility

Add up to 16 additional outputs to the PCX control panels with the PCX ROX 8R 8T.

PCX ROX 8R 8T WIRED EXPANDER

Deliver the output the installation needs with the ability to add eight relay outputs

The ability to add relay outputs (NO or NC) provides greater flexibility and options to any install; adding a multitude of peripherals to deliver the perfectly tailored system.

Deliver the outputs the installation needs with the ability to add eight transistorised outputs

The ability to add transistorised outputs enables simple and straightforward installation and the flexibility of adding a multitude of peripherals, to deliver the perfectly tailored system.

Adaptable & optimised

- **Know the status with LED indications**

The PCX ROX 8R 8T boasts status LED indications for each output, which makes installation fast and easy.

- **Capable of being plugged onto an intelligent PSU**

Provides the ability to monitor its own power from the PSU. All connections are automatically made to draw their power from the power supply and it can be used to monitor if there is an issue at that particular point.

- **Wired directly to the RS-485 BUS**

Partcode	PCX ROX 8R 8T
Type of Module	
Wired input expander module	×
Two-way wireless input expander module	×
Output expander module	✓
Technical Characteristics	
Wired inputs (NC/DEOL/3-EOL)	×
Outputs	8
Relay outputs	8
Two-way wireless inputs	×
Two-way wireless keyfobs	×
Two-way wireless sirens	×
Plastic housing with tamper protection	✓
Metal housing with tamper protection	×
Integrated power supply	×
Certifications & Warranty	
Electrical conformity	CE
EN50131	Grade 3
Environmental class	II
	×
	Self-certified
Warranty	2 years

- **Connect to an Engineer Keypad**

Allows simple and remote access to the PCX ROX 8R 8T without having to keep referring back to the control panel.

- **Beat the burglar with adjustable rear tamper protection**

This ensures that maximum security is maintained against accidental or malicious tampering of the system, providing that added peace of mind that the system is secure.
