# PCX RIX8+ WIRED EXPANDER

Partcode	PCX RIX8+
<b>Type of Module</b>	
Wired input expander module	✓
Two-way wireless input expander module	✗
Output expander module	✗
<b>Technical Characteristics</b>	
Wired inputs (NC/DEOL/3-EOL)	8
Outputs	4
Relay outputs	✗
Two-way wireless inputs	✗
Two-way wireless keyfobs	✗
Two-way wireless sirens	✗
Plastic housing with tamper protection	✓
Metal housing with tamper protection	✗
Integrated power supply	✗
<b>Certifications &amp; Warranty</b>	
Electrical conformity	CE
EN50131	Grade 3
Environmental class	II
	✗
	Self-certified
Warranty	2 years

## Deliver the security the installation needs with the ability to add eight wired inputs

This provides the ultimate flexibility to seamlessly expand the system. The PCX RIX8+ supports wired double pole or double EOL inputs.

## Deliver the output the installation needs with the ability to add four wired outputs

The ability to add four transistor outputs provides greater flexibility and options to any install, adding a multitude of peripherals to deliver the perfectly tailored system.

## Extend the data BUS range with the integrated RS485 repeater

Supercharge your installation by extending the RS485 BUS, for those bigger installs that need more power and more range.

## Beat the burglar with tamper protection

This ensures that maximum security is maintained against accidental or malicious tampering of the system, providing that added peace of mind that the system is secure.

## Meet the required security standard with Grading options

The PCX RIX8+ is Grade 3 for the superior security the installation needs.
