

Out of sight, security in mind

Choosing a wireless magnetic contact just got a whole lot easier.

Meet the MCNANO-WE, a wireless magnetic contact that delivers exceptional long-life performance and blends in perfectly with any residential or small commercial property.

Engineered for a satisfying installation, the MCNANO-WE provides a compact and stylish contact for multiple security use cases.

MCNANO-WE

14mm 29mm

69mm

Engineered to perform, designed to disappear

Not only does the MCNANO-WE provide the ideal wireless magnetic contact for any internal perimeter application, but it also fits within the door or window frame for an extremely discreet finish. A non-invasive and efficient installation for smarter security.

Nano size, giga performance

Don't let its size deceive you, the MCNANO-WE offers superior wireless performance even within uPVC frames, with an outstanding 2-year battery life; providing installation flexibility for any residential or small commercial property.

Fit for (multi)-purpose

The MCNANO-WE can protect entrances and exits, as well as secure multiple use cases, from medicine and cleaning cupboards to rooms, desk drawers and windows. Make every property secure and safe.

Smaller doesn't mean less secure

Providing optimum security that's almost 66% smaller than the MC1MINI-WE. The MCNANO-WE offers the same level of security protection, in a much more modern and flexible package.

Maximum security, maximum style

Although the MCNANO-WE has been developed to fit out of sight, its aesthetic design gives it a premium and stylish finish that can both blend-in and complement any property. Stealthy has never been so stylish.

Security never sleeps, so neither does the MCNANO-WE

The MCNANO-WE is constantly awake; giving the user complete peace of mind that they'll be alerted to activations when the system is armed, as well as chime tones when doors to the property are opened. Be assured that the MCNANO-WE is keeping patrol.

Switch up the colour

The MCNANO-WE comes in white as standard, but you can switch this up by purchasing plastic kits to turn it brown (MCNANOBR-KIT) or anthracite (MCNANOGR-KIT) to match the installation décor. Even if you spot it, it will still blend in.

Partcode	MCNANO-WE
Slim Wireless Magnetic Contact	
Key features	
Front and rear tamper protection	\checkmark
Signal Strength Indicators (SSI)	\checkmark
Magnet included	\checkmark
Casing and colour	White, 2mm ABS
Electrical specifications	
Transmission frequency	868MHz, FM transceiver narrow band
LED colours	Red, blue, green
Transmission method	Fully encrypted rolling code
Temperature	
Storage	-20°C to 50°C
Nominal	-10°C to 50°C
Certified	-10°C to 40°C
Battery	
1x lithium battery included	CR2450R, 3V, 620mAh @ 390uA (Ø x H) 24.5 x 5mm
Low voltage threshold	2/2V+/-5%
Dimensions (WxHxD) and weight	
Device	29 x 69 x 10mm, 21g
Magnet	14 x 69 x 10mm, 19g
Certifications	
Electrical conformity	CE
EN50131	Grade 2
Environmental class	II

Faster installation, less invasion, upsell opportunities and the same superior security with two-way wireless technology:

• No wires, no fuss

Fully wireless means there is no need to run wiring by lifting floorboards or moving furniture; saving time and money.

One-Push-To-Learn

A feature in all Enforcer wireless devices that means learning them onto the system can be done in seconds. A simple onebutton learning feature for easy installation.

Signal Strength Indicators (SSI)

SSI in all Enforcer wireless devices allow them to be optimally positioned during installation, without the need to refer back to the panel.
